*Custom molding process makes endless possibilities for your unique USB*

Included in our broad product line at All-In-One® are our custom-molded PVC USB drives to fulfill your customer's exact needs. Each product made at All-In-One® is individually crafted and inspected for precise imprint and logo accuracy. As the leader in custom USB drives, we make it a breeze to place an order. Simply send us a logo or photo and we will create a virtual proof to show your client for approval. Then, we produce your custom PVC USB drive. Easy as that.

The process uses our expert PVC molding to create a high level of detail and craftsmanship, with endless possibilities for product design. Customized PVC drives can be molded into a wide variety of 2D and 3D shapes and colors using Pantone Matching Systems to create the exact look and feel any client desires.

**Custom USB Drive created for the We Bare Bears TV series**

**USB TIER 1 MEMORY**

**Distributors choose Custom PVC USB Flash Drives with amazing results!**

The Three Bears custom drive project, created for the We Bare Bears television show on Cartoon Network is one of All-In-One's® remarkable case studies because the distributor's client packaged them into a limited-edition version of Jenga, the retail game. The unique drives, coupled with novel packaging, proved to be a highly successful pairing and drove demand for higher quantities and more frequent orders of the Three Bears USB drive.

This project involved All-In-One's® expert graphics team who created the artwork and collaborated with our skilled factory team to recreate the Three Bears characters, "Grizz" the Grizzly bear, "Pan Pan" the Panda bear, and "Ice" the Polar Bear. The drive features smoothly rounded organic shapes stacked on one another with a USB drive hidden securely within the bears adding to the drive's novelty. The Three Bears custom drive project surpassed the client's expectations and they were so pleased with it that it was showcased at Comic-Con!

Make your marketing dreams come true, send us your idea today!
